BUREAU OF THE MINT,

Washington, D. C., February 28th, 1884.

Sir:

I am in receipt of a letter from Prof. Spencer F. Baird, Secretary, stating that the Smithsonian Institute is about establishing a series of historical exhibits in the National Museum, intended as far as practicable to show the progress made in science, also the working of the several Departments of the Government, and requesting that a series of medals issued by the Government from the earlier days to the present time be furnished. Prof. Baird in his letter states that the Smithsonian has

no funds to meet any expense for this service.

Inasmuch as the Museum is a National institution, I deem it eminently proper that copies in bronze of all the medals struck by the Government should be deposited therein.

You are therefore authorized and requested to furnish two copies in bronze (in order that the obverse and reverse may be shown) of all medals struck at your Mint as early as practicable.

The box containing the medals should be directed to the National Museum and this Office duly advised.

Albion Snowden, Esq.,
Supt. Mint,
Philadelphia.

Very respectfully,
Horatio B. Mchord,
Director
